Happy Chinese New Year

We are moving into another Chinese New Year soon. Although people are still cautious about the infectious COVID-19 virus and its ever-evolving new variants, the pandemic seems to be over for many. Life will find a way! People are learning to live with the presence of COVID-19 as normally as possible.

This year, the Spring Festival falls on 22 January 2023. However, the actual spring starts on 4 February 2023, according to the Chinese Solar Calendar. In China, Korea, Vietnam, South East Asia and in Chinatowns across the world, people will be looking forward to the Coming of Spring this Water Rabbit year. It signifies new beginnings, fresh starts and hopes for greater abundance. This year's new year is even more meaningful, especially for those who won the hard-fought battle against COVID-19 infections.

Celebrations traditionally run from Chinese New Year's Eve until the Lantern Festival on the 15th day of the Lunar month. A reunion dinner is held on the eve of the Chinese New Year. It is considered the most important reunion meal of the entire year.

In Malaysia, the reunion dinner will start off with a famous Chinese New Year dish called the *Yu Sheng* or “prosperity toss.” All the diners at the table will stand up and proceed to use their chopsticks to toss the shredded ingredients of the *Yu Sheng* into the air while shouting out various auspicious wishes. Check out page 4 for auspicious directions for tossing the *Yu Sheng* this year. Make sure that you are standing with your back towards the auspicious direction as you make the toss, and say your auspicious wishes, especially those for good health, out loud.

We will be introducing the Bazichic eTong Shu and Bazichic Abundance Planner in the web programme for 2023 as part of our Starter Plan and Premium Plan respectively. It will no longer be available in an ebook format. There is also a free version for non-subscribers. You can still find out which direction to use to usher in the auspicious Gods on page 6. The God of Wealth brings wealth. The God of Nobleman enhances your Nobleman Luck. The God of Prosperity ensures that everything runs smoothly and that you will have enough of everything. Lastly, the God of Happiness brings harmony and an overall feeling of fulfilment.

Our Annual Chinese Astrology forecasts are based on the birth year Zodiac. However, as you may already know, in Bazi there are four more Chinese Astrological Signs corresponding to your luck cycle, month, day and hour of birth.

So, although this forecast is based on the birth year Zodiac, we've included bonus information on what each sign means when it appears on the hour, day, month and luck pillars. So, don't forget to check that out too.

Here's what's in store for the 12 signs of the Chinese Zodiac in 2023.

Overview

Those born in the year of the Rabbit will enjoy a happy and fulfilling year despite the effects of the Grand Duke. The presence of many auspicious stars pacifies the wrath of the Grand Duke and the other inauspicious stars to some extent. Rabbits born in spring, summer and winter will do exceptionally well in whatever they set out to do.

The General Star and the Grand Duke bring about events that will thrust Rabbits into a leadership position. Although Rabbit people will feel stressed swimming in uncharted waters, they will quickly adapt to the situation with the help of Noble people, fans and supporters.

The Heavenly Nobleman and Sky Noble Stars bring good news. These stars also turn negative events to the advantage of the Rabbit. Noble people and resources will come to the Rabbit's aid. Not only that, but the Sky Noble Star also brings positivity and happiness. With a positive outlook, Rabbit people will be able to find the right people and resources to resolve their problems.

The presence of the Bright Hall, Intelligent and Study Hall Stars bode well for students who have the Rabbit sign. Rabbits who are in the training, education, publication, and research and development industries will also do well. Bloggers, writers and authors will also get a lot of attention.

The Heavenly Chef indicates that the Rabbit's standard of living will improve in small ways. Rabbit chefs will see a boost in their income, while other Rabbits will enjoy plenty of good food.

The inauspicious stars in the Rabbit sign indicate emotional outbursts. The Sword Edge Star which causes fights, accidents and separation will mellow down in the Water Rabbit year. The star will even bring about unexpected romantic encounters.

Career and Wealth

The Rabbit will be in for a roller coaster ride career-wise, but it will be for the better. Rabbit people will be forced to take up a leadership role. The Rabbit will be better off for this and grow in confidence this year. Rabbits can achieve success if they act upon their career goals. There are many auspicious stars that will bring out the creative and innovative side of the Rabbit people. These stars also bring out the flexibility and adaptability of the Rabbit people during times of change at work. Working with Rabbits can be a breeze as they are intelligent and quick to grasp new concepts and adapt to new situations.

The Golden Lock Star brings wealth opportunities. The star ensures that businesspeople and employees will experience an increase in their income. The Golden Lock Star brings stability to the Rabbits' career and provides a steady flow of monthly income.

For businesspeople, the beginning of the year will bring a good reputation and an increase in the market share of their products. Businesspeople will be able to attract a lot of customers thanks to their reputation.

Relationship

At work, the Rabbit people will gain the respect of their colleagues, superiors and bosses with their hard work and humility. Their upright attitude will also gain their customers' trust. While learning to become a leader, they have the support of the people around them. Their bosses will be willing to mentor them.

Single Rabbits seeking the right partner can ask their friends and families for help. The Sword Edge Star brings unexpected romantic encounters through arguments, accidents and competition. It will be a case of "opposites attract" for the single Rabbits. However, to make the relationship work, you need to make a lot of adjustments and compromises.

Safety and Health

Rabbit people will enjoy good health. Although there will be no major accidents, Rabbits must be careful when handling sharp objects. They will tend to cut themselves and cause self-injury.

The Rabbit Sign in the different Branches

Overview

Those born in the year of the Dragon will experience many changes and challenges. Dragon people can still get what they want and achieve success if they tread carefully.

There are two auspicious stars, the Sun and Pommelled Saddle Stars, appearing in the Dragon sign. The Sun Star brings good news to the Dragon sign. The star also brings out positivity and happiness. Because of this optimism, Dragon people will be persistent in pursuing their goals even when met with opposition, obstacles or discouragement. This star turns negative events to the advantage of the Dragons. Noble people and resources will come to the Dragon's aid. For smart and hard-working Dragon people, the star spells success.

The Pommelled Saddle brings changes for the better. Hard-working Dragon people will be actively making changes if they think that such changes will bring about a better future. Dragon people who are laid back will feel stressed during this period because they are forced into making changes. Nevertheless, the outcomes will benefit the Dragon people.

The Six Harm Star brings disappointment. Dragon people should stay independent. They should not expect much from others or depend on others too much, or else they will feel let down.

Career and Wealth

The Sky Emptiness Star indicates absent-mindedness. At work, the Dragon people will tend to make mistakes because their minds are preoccupied with something else or they are being distracted by others. Dragon people should reduce multitasking and do one thing at a time. Dragon people should also lock away their social media accounts during working hours.

Dragon people who are in male-dominated businesses or businesses offering products and services for men will do better compared to those in other industries. Dragons in other businesses, especially

those connected to U.S. companies or businesses will experience challenges as the U.S. heads for a recession. They may experience cash-flow problems as customers default on payments.

Dragon people under employment are more fortunate as they have the safety net of a job to tide them over this tough period. At work, they should lower their expectations of getting the usual increment and bonuses. Dragon people born in the spring and summer will do well in their careers. Dragon people born in autumn will likely experience instability at work. They should focus their energies on work rather than gossiping about the company or their bosses. Colleagues who seem to be friends will tattle on you to your bosses. This can hurt your reputation.

Relationship

At work or in business, the Dragon people must communicate clearly to ensure that they are not misunderstood. The Dragon people will have a good affinity with people. Any mistakes or misunderstandings will be forgiven when the Dragon people apologize sincerely and work to ratify the problems.

At home, the Dragon will show their true temperament. They will tend to be moody because of the Bad Qi Star. Family members will try to avoid the Dragons. This can make the Dragon people feel lonely. Dragon people can manage their mood swings by talking things out with their family or friends or by meditating or exercising when they feel down.

Safety and Health

It is a safe year for the Dragon people. They will enjoy good health too. However, Dragon people should learn to manage their mood swings to avoid descending into depression.

The Dragon Sign in the different Branches

Luck Cycle: Networking and making new friends will bring more Noble people.

Year: You will tend to be moody. If you do not manage your mood swings, you may drive Noble people and your loved ones away from you.

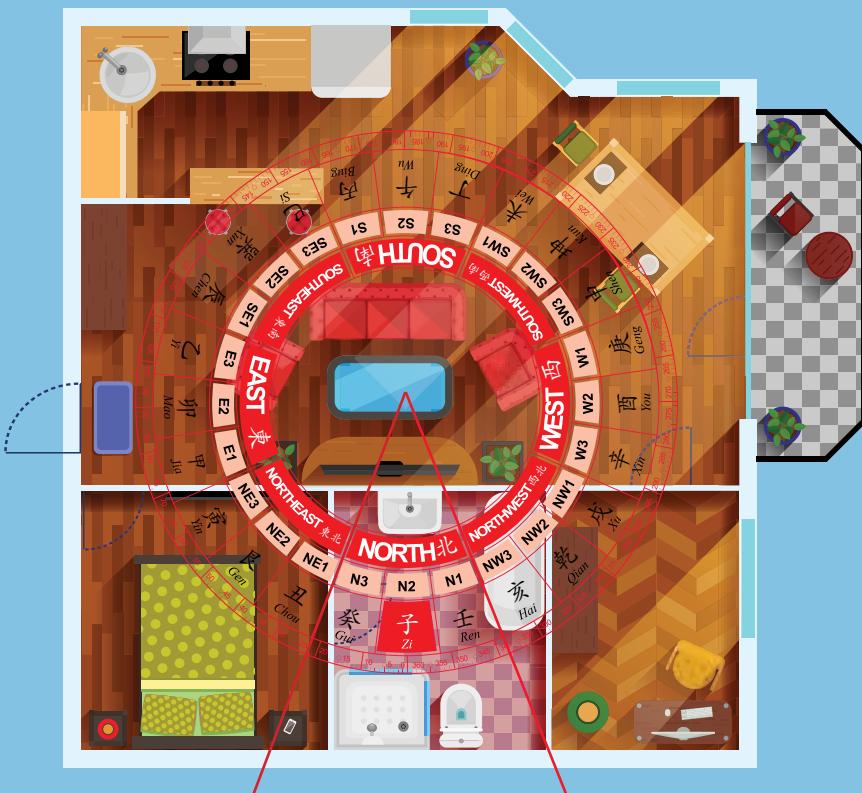

Month: Be ready for changes. Whatever you undertake to do, it will turn out positively.

Day: Your spouse, family and friends will be supportive. They will bring you happiness if you open your heart to them.

Hour: Joining younger people and their activities will help you feel younger and happier.

Tips for the Tiger and Dragon Zodiac

The Fortune Virtue Star at the North 2 sector brings good health and Noble people. Activate or utilize the North 2 sector of your home more often for overall stability in 2023.

Overview

The adventurous Snake can look forward to some excitement in 2023. However, peace-loving Snake zodiacs will find it a roller coaster year. Even though the Snake zodiacs are in for some challenges, they can still have a fulfilling year if they tread carefully. This is because of the presence of the Sky Gracious and Sky Fortune Stars.

The Sky Gracious Star brings help from Noble people. They are usually your elder family members, superiors or people with higher authority. These Noble people will help you secretly and indirectly because they don't want you to gain the bad habit of depending on others whenever there are troubles or problems. They want you to be able to stand on your own.

The Sky Gracious Star is also one of the Intelligent Stars. The star brings a good reputation and the limelight to Snake people who are subject experts. Snake people will also be able to use their wits and strategising skills to resolve problems. The presence of both the Sky Horse and Sky Gracious Stars brings wealth opportunities. Usually, you need to work hard and put in more effort to have more income. With their knowledge, the Snake people will be able to come up with great ideas to earn more income.

The Sky Fortune Star brings good news. The star is an all-rounder-bringing prosperity, good career luck and success. The star's presence with the Sky Gracious Star will bring recognition. Its presence with the Sky Horse Star will bring fame, wealth and power. The presence of these three auspicious stars in the Snake sign will mellow down the inauspicious stars, lessening their negative impact on the Snake people.

Among all the inauspicious stars, Snake people need to take note of the Separating Edge Star and Broken Star. The Separating Edge Star indicates an argumentative nature. The star indicates a bad affinity with people. Because of this, Snake people will tend to attract petty people and experience obstacles. Be diplomatic, and humble, abstain from arguments and listen attentively to avoid the negative effects of this star.

Career and Wealth

At work, the Snake people will be able to achieve their career goals if they put in more effort. They will receive a lot of help and guidance. Nothing can deter the Snake people when they are determined.

With the presence of the Sky Fortune Star, Snake people under employment will have stable jobs and see their income increase. While they will receive a standard increment, the extra income will come in the form of bonuses, gifts, or rewards. Their work will be recognized by their superiors and bosses. Snake people who worked hard last year will also have a chance for a promotion.

Snake people who are in business will enjoy a stable and steady rise in income. The presence of the Sky Gracious Star indicates that it is a good year to spend more on research and development. Businesspeople may come up with innovative products that enable them to get ahead of their competitors and increase their market share.

Relationship

At work or in business, the Snake people must listen and communicate carefully. The Separating Edge Star indicates a poor affinity with people. Arguments and disputes can easily arise from misunderstandings or miscommunication. This star brings petty people who will use words to trick the Snake people. Do not be defensive when dealing with complaints. Acknowledge, apologize and ratify the problems immediately.

At home, the Snake people will be prone to feeling let down by their family members. They may make unreasonable demands at home. The Snake should have some private time to clear their minds and reflect on their expectations.

Safety and Health

The Snake people's safety will be at risk. Snake people need to be careful when walking near construction areas or high-rise buildings to avoid being struck by falling objects. The Snake will also be prone

to falling down the stairs or slipping down a slope. It is better to wear flat shoes with good friction.

The Snake Sign in the different Branches

Luck Cycle: There is a Chinese proverb that says, “Traveling thousands of miles is better than reading thousands of books.” Travel will teach the Snake people confidence, independence, and freedom. Snake people will become more self-aware and gain more problem-solving skills.

Year: One of the Snake people’s New Year’s resolutions should be to learn something new that can advance their career or take a new course to increase their knowledge. Do not veg out in front of the television. This will be a waste of the positive energy of the year.

Month: Your bosses, superiors or colleagues will be your Noble people. Listen to them even if they appear nasty and unhelpful.

Day: The Separating Edge Star indicates arguments that can lead to separation. Do not let trivial matters break your relationships. Communicate what you want to your love partner. Remember to send your spouse small gifts from time to time as a sign of appreciation and love.

Hour: Mixing with younger people will make you feel more alive. You will feel younger and happier.

Tips for the Snake Zodiac

Activate the Moon Star at the South 2 sector with candles on auspicious dates to enhance good communication.

Overview

Those born in the year of the Horse will enjoy a fortunate year.

The presence of the Moon Star brings help from Noblewomen. Horses born at night will also be luckier. Horses who work in female products and services-related industries or those who work for a lady boss will do well. The Moon Star also brings out good communication skills. Thus, the Horse people will appear more articulate. Horses will also be more spiritual due to the Moon Star's effects.

The Moon Star also enhances the Sky Happiness Star. The Moon Star brings out the romantic and sentimental side of a person. Both stars bring happy news of a romantic bent. Horses getting married this year will probably have a memorably grand and romantic wedding.

The Rest God Star denotes a relaxed and calm nature. Horse people will take things easy, and will be friendlier and less stressed due to the star's effects. They will also try to work less, setting aside more time for leisure and rejuvenation.

The Heavenly Officer Star represents a good reputation and higher status. The presence of the Rest God Star also enhances the effect of the Heavenly Officer Star. The star brings out the easy-going and peaceful side of a person. They will gain a good reputation through their knowledge and wisdom. They avoid competing to be seen as they see this as non-beneficial and a waste of time.

The inauspicious stars do not pose any challenges or obstacles to the Horse people, but they will bring injury and accidents to Horse people. Thus, the Horse can look forward to a successful and fulfilling year.

Career and Wealth

In terms of career and work, the Heavenly Officer Star shines on the Horse people bringing good news. The knowledge and wisdom of the Horse people will be recognized and rewarded if they can apply it in their work. The Heavenly Officer Star also indicates a possible

career promotion for Horse people who can show leadership and good communication skills.

The Moon Star brings wealth opportunities through investments, especially property investments. However, it doesn't look like the property market will do well in 2023, so how will people experience a huge capital gain? Property prices will likely increase due to business costs and the expected increase in interest rates which will cut into the capital gain. However, with the effect of the Moon Star, Horse people will be able to come out with creative ideas to make profits in this stagnant market.

The Moon Star brings wealth luck to the Horse people through the help of Noblewomen. Horse people will learn better ways to save and make money work for them. Some well-to-do Horses will also consider buying land for farming and tourism purposes.

Relationship

The Horse sign will enjoy a good affinity with people and will have harmonious relationships with colleagues and bosses. With the blessings from the Moon Star and Rest God, Horse people will enjoy harmonious relationships with colleagues, bosses, friends and family. Married couples will enjoy a loving relationship. They will become more popular in their social circles.

Single Horses will have unexpected romantic encounters while on holiday or on an adventure.

Safety and Health

The Horse will be prone to injuries and accidents caused by sharp objects. Horses that frequently work with machinery need to take extra precautions, especially if they need to handle cutting machines.

The Horse Sign in Different Branches

Luck Cycle: Horse people will be able to meet with many happy and friendly people if they go networking, travelling or even while exercising in the gym or park. Their positive vibes will rub off on you.

Year: You feel positive, happy and motivated. However, you are not up to taking on new challenges. You would rather enjoy life and have fun.

Month: You will have the opportunity to get a job promotion. Your knowledge and wisdom at work will be recognized by your bosses.

Day: You will have an enjoyable time with your family. You may be planning to take your family on vacation to exotic places.

Hour: You will worry about your children having too much leisure and fun time to the detriment of their studies. However, you are unable to discipline them.

Tips for the Horse, Goat and Pig Zodiacs

The Fortune Virtue and Duke Virtue Combo Stars at the North 2 and North 3 sectors respectively brings stability and Noble people. Activate or utilize the North sector of your home more often to improve well-being and to ensure your safety in 2023.

Overview

Goats will experience a mixed year in 2023. While there are challenges, Goats will still come out victorious if they work hard and work smart.

The Three Stages and *Tang Fu* Stars denote friends, allies and comrades who have the same goals. The Three Stages and *Tang Fu* Stars bode well for Goat people who need the limelight and networking in their line of work. These two stars bring a good affinity with people. The Goats will befriend many interesting people whose experience and knowledge will become a source of inspiration for the Goat people.

The Three Stages Star enhances the Eight Seats Star. The Eight Seats Star represents status, position and power. The Goats will experience a change in their social status after meeting powerful Noble people. Goats must learn to socialize comfortably with powerful, rich and influential people. A confident and wise Goat will gain trust and respect in the highest echelons of society.

Goats will have the luck to appear to save the day during times of trouble, and there will be many opportunities to do so in 2023. This is the effect of the Relief God and Sky Relief Stars. People will look to the Goat people for guidance. Goat people will be called on to solve other people's problems. Goats will get dragged into legal problems while trying to solve problems for others.

The Dragon Pool and Phoenix Pavilion Stars bring fame and wealth. The Dragon Pool, Phoenix Pavilion and Elegant Seal Stars are considered to be different types of Intelligent Stars. The Goat people will broaden their minds this year. The tendency toward solitude from the effect of the Elegant Seal Star will be mellowed down by the influence of the Dragon Pool and Phoenix Pavilion Stars. These two stars bring out a sense of pride, confidence and determination in a person. Goat people will also learn to cherish and love themselves.

While there are many auspicious stars residing in the Goat sign, there is an equal number of inauspicious stars. Goats must tread carefully while solving problems for others. Unhappy petty people will get the Goat people into legal disputes out of spite and greed.

Career and Wealth

Whether you are an employee or in business, the Goat zodiac will be able to achieve their goals and advance their careers in 2023. With the Dragon Pool and Phoenix Pavilion Stars shining on the Goat sign, businesspeople can look forward to increasing sales and revenue. While businesspeople enjoy bountiful profits, it is not a good year to try to expand your market share into other townships, states or countries. Petty people who are afraid of the Goats' success will have the chance to sabotage them if they do not tread carefully.

Goat employees will have an opportunity for a promotion. Even mediocre Goat people will enjoy a reasonable increase in their salaries and receive bonuses. However, their good fortune will attract jealousy. Petty people will create obstacles for the Goat people at work. They feel that the Goat people did not deserve their success. Friendly Goats will not be able to discern friends from enemies. The Goat should not trust or depend too much on others.

If Goat employees feel stagnant at work, they can start looking for a new job. In 2023, the Goat people will have good opportunities to find new jobs with good career prospects. They may get a higher job position with a better salary package when they move to a new company.

Relationship

The Dragon Pool and Phoenix Pavilion Stars indicate a good affinity with people. At the same time, Goats will also attract petty people with the presence of the Five Ghost in the Goat sign. Goats should not trust others so quickly. They should be more suspicious about other people's motives and pay close attention to the behaviour, character, speech and actions of the people around them.

Single Goats who still have not found the right romantic partner will continue to have a chance in 2023. Married Goats will find their marital harmony disrupted by petty third parties. The third party may be the catalyst for a break-up, but they are not the source of the problems. The Goat people must evaluate their relationships. If they decide to stay in the relationship, they need to work on themselves to reconnect with their love partner.

Safety and Health

Goats will enjoy good health, but their safety is at risk. The Blood Knife and Flying Blade Stars indicate injuries and accidents due to sharp objects, including flying sharp objects. Goats who constantly need to handle cutting machinery at work need to be extra careful.

The Goat Sign in Different Branches

Luck Cycle: You will meet famous, rich and powerful people. Your status will also experience a change after meeting these powerful people.

Year: You will enjoy good wealth luck, but you will also meet many petty people hiding behind friendly faces. Handle sharp objects with care to avoid injuries.

Month: Both hard-working employees and businesspeople will experience a change in status. Their good reputation will be rewarded.

Day: You will have the support of sincere friends and family.

Hour: The Goat has many good ideas. Knowing that petty people are trying to steal their ideas will spur the Goats to capitalize on their ideas.

Refuse to let small, petty people distract you from your *Big Purpose*.

Overview

The adventurous Monkey can look forward to some excitement in 2023. Peace-loving Monkey zodiacs will also find fulfilment in 2023 if they tread carefully.

The Heavenly Horse Star brings travel luck to the Monkey people. The more the Monkeys travel, the more they will encounter wealth opportunities. The Heavenly Horse which is also known as Duke Horse can also mitigate the negative effects of the inauspicious stars provided the Monkey people stay active, either by travelling or, working hard. The positive effect of this star will not be activated if you decide to stay idle or become a "couch potato".

With the Heavenly Horse and Earth Relief Stars, Monkey people can neutralize negative Qi, resolve any kind of problem, turn negative events to their advantage and fend off disasters. The Earth Relief Star is also known as the Star of Disaster Elimination. It has the power to ward off danger. Monkey people will be able to access both tangible and intangible resources to resolve problems. Help will usually come from people they already know, such as friends, family or relatives. The Heavenly Horse and Earth Relief Stars also denote that the Monkey people will be less affected by *Sha Qi*.

The Monthly Virtue Star brings help from Noblemen and peace in trying times. The Monthly Virtue Star works on the principle of cause and effect. Even though the star is a secondary-level star, it can be powerful. The more kindness and help the Monkey people offer to others; the more they will receive in kind. At its most basic level, the star brings stability. The Monkey people will have enough of everything if they practice living simply and are contented with obtaining only what is needed to go about their daily life.

The Monkey people must take note of the effects of the Robbery *Sha*, Lesser Consumer and Death Charm Stars. These stars indicate a loss of wealth. Monkeys should not endanger themselves over money. You can always make back the money you lose.

Career and Wealth

The Monkey Zodiac will have a mixed bag of fortunes when it comes to their career. With the Heavenly Horse Star together with the National Treasures Star, businesspeople will thrive. They will be able to grow their brand and increase their market share. However, this attracts copycats who plagiarize their ideas. Monkey people need to be creative to make their brand stand out as the market leader.

Monkey employees will be more fortunate as they will enjoy the stability that comes with a permanent job. Overview

Those born in the year of the Rooster will experience mixed fortunes. There are two auspicious stars having a major influence on the Rooster sign this year.

Roosters will do well financially due to the Jade Hall Star. The star brings wealth opportunities, especially wealth related to land and properties. This bodes well for Roosters who are hunting for a new home, moving to a new house or buying a property for investment. The Jade Hall Star is also known as the ‘Yin Nobleman’. Rooster people will receive help from unconventional sources. For example, they will receive guidance from women, healers, spiritual gurus, shamans and metaphysics practitioners.

The presence of the Month Emptiness Star in the Rooster sign has a neutralising effect. Even though it is a minor star, it can neutralise all the inauspicious stars in the Rooster sign. The Month Emptiness is known to bring everything back to its state of origin or starting point. This is not a bad thing when things go wrong. This star bodes well for spiritual Roosters who want to connect to their spiritual side and achieve spiritual enlightenment.

Among the many inauspicious stars in the Rooster sign this year, the Year Breaker, Great Consumer and Obstacle Stars will have the strongest impact on the Rooster people. These stars bring unexpected events and delays that will cause the Roosters to experience a loss of wealth. Fortunately, the Roosters have the money to settle all their problems.

Career and Wealth

In terms of career and work, Rooster people who work hard seem to be going nowhere. This is because of the Month Emptiness Star. Roosters may need to hand over or end the projects they are working on due to unforeseen circumstances. Thus, their good work on these projects will be for nought. Nevertheless, Roosters will still be rewarded in small ways for their efforts. At work, absent-minded Roosters will tend to make careless mistakes. Businesspeople

will see money come and go. While they can earn a lot there will be unexpected expenses that need to be taken care of. Their bank balance will not change much from the previous year.

Relationship

Roosters will not enjoy the best relationships with people, but the Jade Hall Star will bring help from unconventional quarters.

Most Roosters will have no time for romance as they are busy tending to unexpected problems. Even single Roosters who are looking for love will find it hard to meet someone they like. This will make them feel sad and lonely.

Married Roosters will not feel that they are receiving enough support from their spouses and family members. However, Roosters should be grateful despite the help not meeting their expectations.

Safety and Health

The Roosters' safety will be at risk. They will be prone to water-related accidents. Roosters who are planning their holidays should avoid waterfalls, rivers and beaches or countries prone to typhoons and extreme weather. Overall, Roosters will enjoy continued good health.

The Rooster Sign in Different Branches

Luck Cycle: Meeting up with new people and making new friends will not only expand your social networks but also bring wealth opportunities.

Year: You have many wealth opportunities. You will also be more spiritual this year. You will likely donate most of your financial gain to a good cause.

Month: This is not a good year to jump to a new company even though you will get a job offer that seems to offer better career prospects.

Day: Your spouse may experience spiritual enlightenment. However, you will feel that your spouse is getting weird in his or her spiritual pursuits. Try to be understanding of their pursuit of spirituality before making snide comments.

Hour: Keep a lookout for good property investments if you have the budget. Challenge your mind with mental exercises to stay focused and improve your memory.

Month: If you are not careful with important and private and confidential documents, you will be sabotaged by petty people. You will also lose the trust of your boss. It will take a long time to rebuild the trust.

Day: Your spouses seem to be making a big fuss over trivial matters. Try to maintain your cool and let them have their way as long as they do the work. If you live in a disaster-prone area, make sure you have a family safety plan in place.

Hour: You will find younger people petty. However, this could be due to different beliefs, views and ways of doing things.

Tips for the Pig Zodiac

A Global Recession

Welcome to 2023, the year of the Water Rabbit (癸卯 *Gui Mao*). In the year of the Water Rabbit, we can see weak and hidden asset elements (the Metal element). The Metal element represents assets in 2023. Whereas the Fire element, which represents wealth in 2023, is strong and prominent. This can denote that more money will be printed without being backed up by assets or commodities, especially the gold standard. Such money has no value and can result in hyperinflation and an economic recession. The United States (U.S.) dollar in circulation recorded a historical high in October 2022. The increasing money supply causes inflationary pressure. Many financial experts have predicted a recession in 2023. A recession means that prices in the stock market will decline and there will be job losses and falling income.

Can the U.S. keep printing money without any consequences? No! The de-dollarization is happening, albeit slowly, as many countries are still holding the dollar as a reserve. The 癸 Gui Water and 丁 Ding Fire elements clash on the stems denoting shock, fear, and uncertainty. Most countries are not afraid of the loss of value in the U.S. dollar due to more printing. The de-dollarization is prompted by the fear of a potentially weaponized U.S. dollar as what happened to Russia.

Given that the U.S. job market is still showing robust figures recently, some experts have come up with the term ‘growth recession’ to describe the economy in 2023. The U.S. government hopes that it will be able to manage the recession by inducing a gradual slowdown.

It's not only the U.S. facing a slowdown in 2023, the Chinese and European markets are also showing signs of slowing down.

What caused the recent inflation and recession?

Usually, activities or products and services related to the prominent elements will show an increase in prices.

Water element: One of the most important industries related to the Water element is transportation. In recent years, the transportation of goods and services has been disrupted due to the pandemic, oil price hikes, economic sanctions and war. All this resulted in the increasing cost of transportation.

Wood element: Even though the production of food has recorded an average increase of 20% per annum in recent years, the price of food continues to increase. In 2022, the shortage of food has turned into a food crisis. Why? One of the main reasons is that the COVID-19 pandemic significantly disrupted food supply chains around the world. It will take time for distribution channels at the consumption and distribution stages of the food industry to go back to normal. The rise in fuel and transport prices further increased the complexity of distribution as food competed with other goods. At the same time, climate problems also disrupted the planting cycle, sometimes even destroying crops. The sanctions on the Russian government due to the invasion of Ukraine also contributed to the food crisis. Russia is the world's largest exporter of wheat and an important exporter of barley and sunflower seeds. These compounding factors will push food inflation to its worst in 2023.

Fire element: The prominent Fire element indicates that fuel prices will continue to increase in 2023. This is because the producers in the OPEC group of major exporting countries and U.S. shale firms have opted to limit increases in their petroleum output. They are happy to keep the inventory low mainly to boost revenue. The sanction against Russia, which is the world's largest exporter of oil to global markets, also compounded the problem.

The Water, Wood and Fire elements (癸 *Gui*, 甲 *Jia* and 丁 *Ding*) stand out on the Heavenly Stem. The 甲 *Jia* Wood element resides in the Month Palace. The Month Palace represents the government. The 甲 *Jia* Wood element represents the Hurting Officer Star. This indicates that the opposition party in the Parliament has a strong voice or even power over the controlling government. This formation also indicates that people will not be happy with their government. The two 癸 *Gui* Water elements flanking the 甲 *Jia* Wood on the Heavenly Stem will bring negative influences. This formation denotes a clouded mind or thinking. There is no clear direction for action. People will tend to react without giving the situation much rational thought. This can translate to people taking to the streets to protest. Violence may break out and lead to rioting. Some of these protestors may have been paid to act violently.

Despite the global recession, some countries will still do better in 2023. China and most Asian countries will benefit from the wealth influence of the No. 2 Black Star in terms of economy and GDP growth. However, these countries will experience problems such as infectious diseases, provocation, competition over resources and financial scandals. South American countries and Southern African countries will also benefit from the wealth influence of the No. 1 White Star and No. 8 White Star. South American countries will be prone to infectious diseases.

Most European countries will experience a financial crisis due to the influence of the No. 5 Yellow Star. The star also brings leadership problems. The U.S. and Canada will be influenced by the No. 6 White Star. The No. 6 White Star in the west will meet the No. 7 Red Star. This formation promotes jealousy, conflicts and discord within alliances, fighting, riots, abuse of power and firearms-related crimes. The star also suggests military action. The No. 7 Red Star resides in Russia. Although the star is always associated with financial losses, bloodshed and violence, the star in the Northeast brings good wealth opportunities.

How will Malaysia fare in 2023?

Malaysia will be influenced by the No. 3 Jade Star. The star in Southeast Asia brings good wealth influences. In terms of the economy and GDP growth, Malaysia will see improvement. The star also brings problems related to corruption and financial mismanagement. The weak Earth element and strong Wood element formation also indicate that the party that forms the government after the election in November 2022 will not have majority support. It will be a weak and ineffective government. The internal fights for power within and among the parties will continue and public interest is the last thing on the agenda.

For Consumers

The strong Fire element indicates an increase in the money supply in the market. The continued increase in the money supply will push inflation higher. Most governments are likely to increase interest rates to slow down economic growth and reduce consumer and business spending. Higher interest rates will also prevent speculation in the stock market on borrowed money. Most consumers will set stricter priorities and reduce their spending. They will be less indulgent.

As a consumer, you can still benefit from a recession if you have spare cash to invest based on the prominent elements of the year:

Dollar-Cost Average (Water element): When share prices start to plunge, it is the best time to average down your investment cost. Double-up your monthly investment contribution.

Buy into Dividend Stocks (Fire element): Share prices for dividend stocks are usually high. During the recession, their prices will also be affected and will be available at cheaper valuations.

Invest in Consumer Staples (Wood element): Even during recessions, consumers need to buy food, drugs, hygiene products, and medical supplies. They are the last items to be cut from the family budget. Hence, consumer staples companies are known as defensive stocks. They also pay good dividends.

For Businessmen

In 2023, businesses will be forced to stop expanding excessively due to higher interest rates and stricter credit management policies enforced by the Central Bank.

Overall, businesses will still be buzzing in most of Asia despite the looming recession. The prominent Fire element indicates that business growth will be driven by technology in 2023. More businesses will try to transform their operations through digitalization and automation to cut down on their workforce. In return, businesses will be able to reduce costs and increase efficiency.

During the recession, businesses can shift their business focus into three areas based on the prominent elements of the year:

Fire element: Digitalize and automate to reduce the cost of labour. Since the element also represents cash flow, you may want to check your credit position. Position yourself as a reliable, trustworthy investment for creditors. Diligently pay off your monthly debt so that you have a good credit rating.

Wood element: Being stuck in a single lane can be tough in the midst of a recession. The Wood element indicates profits, especially profits from multiple streams of income. Diversify by pursuing more target markets, offering more products or services, or adding more distribution channels. This can help you reduce risk.

Water element: The prominent Water element represents sales in 2023. Sales come from your prospective customers. A recession will naturally shift your prospects' priorities to needs over wants. To retain customers, you must be willing and able to shift with them. Identify the products and services your customers cannot do without.

Fire-Water element Clash: During a recession, it may be tempting to slash prices. Consumers will also try to haggle for the lowest price. While slashing prices will help you retain customers in the short term, it is bad for the brand name and future price positioning. It can also create a price war. Instead of slashing prices, offer a lower-end product at a reduced price or create special offers separate from your usual products and services.

Employees

The transition to digitalization and automation will continue. Maturity is still a ways off. The industries that are involved in digitalization and automation will still offer the bulk of the employment opportunities in the job market. Meanwhile, there will be a contraction of employment in traditional industries such as property development and finance.

The Metal element represents assets, and the Earth element represents execution ability in 2023. These two elements are weak as they are not prominent in the Bazi chart. This denotes there will be concern about the quality of products and services as well as productivity in the work environment. How will this materialise in the current work environment?

What will the workplace look like in 2023 and beyond?

Employees have happily embraced the opportunity to work remotely since the COVID-19 pandemic. Research has also shown that having the flexibility to work remotely improves employees' happiness and quality of life. Businesses will find it harder to hire or retain staff if they do not offer a remote work model in the future. However, some businesses will be facing a dilemma as not all businesses can offer such an option. This is true for traditional businesses such as restaurants, retail banking and factories where they still rely heavily on the human workforce. Not all positions are suitable for remote work. It is also not possible for businesses to offer 100% remote working positions.

Conservative bosses are still sceptical about the remote working model. They feel insecure when employees are out of sight. They are concerned about employee performance measurement and whether employees are strictly working 8 hours as stated in the employment contract. These concerns will be more acute in Asian countries, which are more conservative, especially when it comes to new practices.

Health

In general, there will be concern about food safety. There will be cases of avian diseases affecting poultry farms and food contamination. It can lead to foodborne illnesses. While the COVID-19 virus is still present, the virus has evolved into a less virulent strain that causes common flu-like symptoms and sore throat. The virus will have a less severe impact on health.

Industries

In 2023, while digitalization and automation will still play an important role, they have moved to the background. More attention will be focused on resolving the food crisis caused by climate change, economic sanctions, disruption in logistics and transportation and war. Food contamination and avian diseases impacting poultry farms will also compound the food shortage problems.

Wood-Related Industries: In 2023, businesses in countries that are agriculture-based and not dependent on food imports will also do well. The people in these countries will not be affected by the higher cost of food. This can translate to higher buying power which is good for businesses. The prominent Wood element indicates that more people will be aware of the importance of agriculture. Governments will try to promote agricultural activities to reduce dependency on food imports.

Jobs related to the Wood element are cultural ambassador, novelist, writer, journalist, librarian, educator, teacher, professor, publisher, ambassador, carpenter, botanist, florist, writer, nurse, doctor, and other jobs that help or educate people. Businesses, products and

industries related to the Wood Element are education, organic food, vegan products, greenery, paper, plantations, wooden furniture, textiles, stationery, cultural publications, health care products, libraries, fabric, curtains, cloth, bookshops, garden supplies, office supplies and the timber industry.

Fire-Related Industries: In 2023, technology will still be the main impetus behind the economy in certain countries. Businesses will focus on using technology that can help them cut costs and increase efficiency to grow their bottom lines.

Examples of Fire element-related businesses, products and industries include artificial intelligence, internet-related industries, wi-fi, fine arts, advertising, genetics, psychology, art, graphic design, computer-related industries, media, robotics, genome research, electronics, mobile phones, beauty products and services, cosmetics, fuel, performance art such as dancing and singing, the movie industry, marketing, advertising, self-help and motivation, metaphysics, spiritual work, aromatherapy, plastics, cafes, restaurants, electrical engineering, energy, fireworks, oil and gas, chemistry, thermal energy, multimedia, printing, liquor, lasers, lighting, photography, semiconductors, anything related to technology and anything that utilizes or produces light or heat or electricity.

Earth-Related Industries: The construction and property development industries will continue to slow down in 2023. Only specialised construction sectors will do better, such as those involved in the construction of transportation systems and infrastructure. Businesses that offer smart home technology design, installation and services are emerging in the property industry.

Examples of Earth element-related businesses, products and industries include real estate and property, architecture, building and construction, dog-related businesses such as pet training, veterinary clinics and dog grooming, storage & warehousing, data storage, pawn shops, antiques, building materials, renovation,

ceramics, demolition, marble, pottery, landfills, recycling, sculptures, stone masonry and work that involves earth, soil, land, or rock e.g. car-parks and mining.

Metal-Related Industries: In 2023, the stock market will take a plunge in tandem with the looming recession. Despite falling prices, technology stocks will still be on an upward trend albeit accompanied by volatile price movements. Traditional businesses, especially the banking industry, will be affected by the increase in interest rates and stricter lending policies.

Examples of Metal element-related businesses, products and industries are finance, banks, insurance, gold, silver, machinery, mining, the automotive industry, locksmithing, hardware, glass, accountancy, auditing, the military, the police, private security, debt collecting, pawn shops, engineering, moulding, hardware shops or work that involves metals, money, and mechanical engineering.

Water-Related Industries: Travelling has yet to reach pre-pandemic levels in 2022. However, the prominent Water element indicates that there will be an increase in tourism and air travel which can exceed the pre-COVID-19 pandemic levels. People will be more willing to travel as the fear of COVID-19 disappears. The appearance of more than one Travelling Star also indicates that there will be an improvement in transportation systems and infrastructure.

Examples of Water element-related businesses, products and industries include highly mobile businesses that involve water, travelling, tourism or the outdoors, sales, spas, firefighting, aquariums, cold beverages, sauces, cleaning companies, casinos, sailing, yachts, retailing, stocks and shares, cold and refrigerated products like ice cream, fish, meat or fruits, air-conditioners, transport vehicles such as coach buses, trains, high-speed trains, or aeroplanes, any businesses related to the sea, water, liquids or that uses water in production. Water element jobs include work

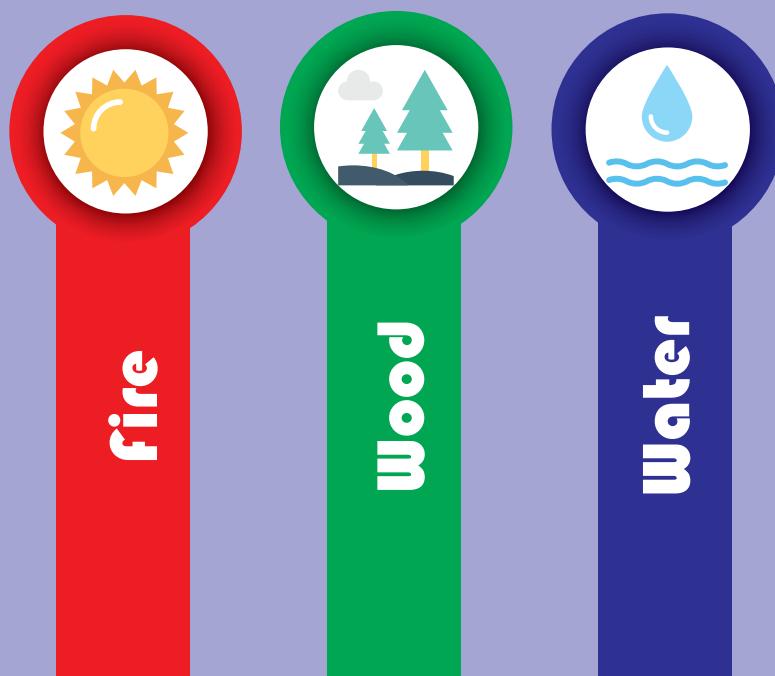

as professional athletes, illusionists, outdoor newscasters and swimming coaches.

Events

The year of Water Rabbit continues to see natural disasters that are water-related such as thunderstorms, cyclones, hurricanes, floods, soil erosion and sinkholes. A rare La Nina occurrence in its third year, can cause more flooding in Southeast Asia, and bring the risk of droughts and wildfires to the Southwestern United States and Australia. It also creates a different pattern of hurricanes, cyclones and monsoons across the Pacific and Atlantic oceans. A weak Earth element also indicates there will be more earthquakes and volcano eruptions. The Snake-Tiger destructive relationship indicates that there will be more accidents related to transportation and infrastructure such as air or train accidents or the collapse of highways or railway tracks.

Auspicious Elements

in 2023

In 2023 the Fire, Wood and Water elements are important. The Fire element indicates happiness and wealth. The Wood element indicates productivity, fame and authority. The Water element brings good affinity and friendship.

WHAT ARE YOUR FINANCIAL OPPORTUNITIES IN 2023?

As you can see from the chart, the Metal and Earth elements are hidden in 2023. The Water, Wood and Fire elements dominate the chart. The environment is teeming with money or wealth opportunities. The asset element, the Metal element, is hidden in the Tiger and Snake Branches. The profit element, the Wood element, is prominent. The Water element represents sales opportunities. On the Heavenly Stem, the Water Day Master element is exhausted by the Wood element in the Month Pillar. The Day Pillar represents the government, and the Month Pillar represents the citizens. Usually, a producing cycle indicates that everything will run smoothly. However, this time, it may not be the case. The Wood element in the Month Pillar represents the Hurting Officer Star. The Hurting Officer Star hurts the Direct Officer Star, meaning there will be an inability to execute and get things done.

八字 Bazhi Chart: 4th February 2023 10:44

All these factors translate into the following possibilities:

- ↳ A strong Hurting Officer (Wood element) meeting a weak and hidden Officer Star (Earth element) indicates that people will over-exercise their rights. People will place their rights above the law. This can translate to unhappy people who will take to the streets and protest. At worst, it can lead to rioting.
- ↳ A weak and hidden Officer Star (Earth element) and prominent Wealth Star (Fire element) indicate corruption and abuse of power.
- ↳ A weak and non-prominent asset element (Metal element) translates into a lack of jobs.
- ↳ A strong wealth element (Fire element) with a weak asset element (Metal element) indicates hyperinflation or a recession. It also indicates rampant printing of money without real assets as backing.
- ↳ The economies of many countries which saw some recovery in 2022 will experience setbacks in 2023.
- ↳ Countries which experienced economic growth driven by technology (Fire element) will continue to recover from the pandemic and do well.

- ↳ With more money available, the stock market will experience more volatility. It will also see its component stocks exhibit a great divergence in performance. Stocks in traditional industries (Earth and Metal elements) especially banking and property stocks will experience a volatile downtrend. Stocks in new emerging industries or technology stocks (Fire and Wood elements) will experience a volatile up trend. Stock prices of the stocks in the food industry and food-related industries will continue to increase steadily.
- ↳ Financial fraud and scandal may break out in Northwestern and Northeastern countries.
- ↳ The Travelling Stars also indicate that logistics and transportation services and business are expected to grow and do well.
- ↳ The price of transportation services will rise as petrol prices increase.
- ↳ The continued business and economic sanctions will continue to disrupt the supply chain (weak Metal element). Some countries will experience oversupply and some countries will experience shortages as supply cannot meet demand due to sanctions.

How will you benefit from these opportunities financially?

Each of these Five Elements has a function every year:

Earth	Metal	Water	Wood	Fire
Execution	Assets	Sales	Profit	Cash

- » The Fire element represents wealth to the Water Rabbit. Wealth is equivalent to cash flow.
- » The Earth element represents execution ability.
- » The Metal element represents assets.
- » The Water element represents sales.
- » The Wood element represents profits.

In 2023, the Water, Wood and Fire elements are prominent in the natal chart. People who have these elements in their Bazi Chart will be able to tap into the influence of 2023 easily.

The Earth element is weak in 2023. This denotes that there will be a lack of competency. Businesses will experience an inability to convert smart plans into actions, and therefore, results. This also indicates a possible disruption in daily operations. A weak Earth element in your natal chart indicates that your actions will not give the expected result. You are better off following orders. A prominent Earth element in your natal chart indicates that you have execution ability. You can get things done. You simplify complex ideas and put them to work. Polish your leadership skills. It is a plus point to have the Emperor Star, the General Star or the Heavenly Officer Star in your natal chart.

The Metal element is weak in 2023. The Metal element represents assets. This denotes that supply will not meet demand. One market can be oversupplied while another market experiences shortages. This also denotes that people are unable to put their knowledge to good use or that their skills are redundant. If you have a weak Metal element in your natal chart, you need to review your skills and knowledge against the in-demand skills in the workforce. Pick up a new skill that is lacking in your current skillset.

Businesspeople should improve their distribution channels. It is a plus point to have one of these Intelligence Stars – Intelligent Star, Study Hall, Sky Bright, Sky Noble, Bright Hall, Sky Gracious, Dragon Pool, Phoenix Pavilion or Elegant Seal. The Golden Carriage, Sky Horse, Three Stages and Heavenly Horse Stars indicate the presence of good distribution channels. It is good to have this star in your natal chart if you are managing the distribution of goods in a company. If you have a balanced or strong Metal element, you will not experience problems related to assets and skills.

The Water element represents sales in 2023. It is one of the favourable elements in 2023. As long as, you have this element in your natal chart, you will benefit from the Water element influence. The element must not be a hidden Qi. The table below shows you how to maximise the Water element in your natal chart.

businesspeople and individuals. It is the money that is available to you to invest, save, or spend on necessities and nonessential items after you pay tax. It is regarded as your wealth luck in 2023.

Harnessing the Positive Feng Shui Stars of 2023

It's once again time to check in on the annual Feng Shui outlook. In general, people tend to focus on Feng Shui afflictions, forgetting that each year also comes with auspicious influences. This year, the concern about Feng Shui afflictions is valid due to the overlapping positive and negative Qi in several sectors. Read on to find out how you can tap into these sectors without provoking negative energy such as the Grand Duke, Three Killings and Five Yellow.

The luopan diagram on page 76 shows the location of both positive and negative Feng Shui Auxiliary Stars in 2023.

Harnessing the Qi of the Auspicious Stars

Boosting your Immunity against the Annual Affliction 歲德神 Duke Virtue

If you are worried about annual affliction stars like the Grand Duke, Three Killings and Five Yellow, you want to not only avoid using the sectors, you also want to have a prevention plan in place. Duke Virtue helps to cushion the impact of negative Qi, like taking Vitamin C to prevent a cough or cold. So, if your home is sitting in a negatively affected sector, you can activate Duke Virtue to mitigate its effects.

However, Duke Virtue is not present in any sector in 2023. What to do now? You can access the Duke Virtue energy on a *Wu Earth day* entering the year 2023 on 4 February 2023. This is because every **Wu Earth day in 2023** contains the Duke Virtue star. Thus, you have the protection of Duke Virtue brought in by the *Wu Earth day* influence.

歲德合神 Duke Virtue Combo

The Duke Virtue Combo has a similar effect as Duke Virtue, the difference being the Duke Virtue is Yang in nature while the Duke Virtue Combo is Yin in nature. Hence, Duke Virtue benefits and protects external matters such as career, travel and appointments while the Duke Virtue Combo benefits internal matters such as relationships, family matters, marriage and health.

In 2023, the Duke Virtue Combo is present in the **North 3** sector coinciding with the No.9 Purple Star in the North sector. The North is a very auspicious sector in 2023.

Entering the year 2023 on 4 February 2023, you can activate Duke Virtue Combo on a good date that falls on a **Gui Water day** in the North 3 sector or any positive sector. This is because every *Gui* Water day in 2023 contains the Duke Virtue Combo star. Thus, you have the protection of Duke Virtue Combo brought in by the *Gui* Water day influence and from the locational influence.

Positive Bank Account Balances

歲祿神 Duke Reward

Wouldn't it be nice if your accounts are always in surplus every year? This involves some discipline. To improve your discipline, you might want to check out the North 2 sector to ensure that the area is spacious and uncluttered as the Duke Reward keeps your accounts in a state of surplus. The North is the most auspicious sector in 2023.

In 2023, the Duke Reward location in **North 2** coincides with the No.9 Purple Star in the North sector and the Fortune Virtue in the North 2 sector. Businesspeople who want to ensure that their business cash flow remains positive can activate the North sector with water. The No.9 Purple Star is also in the North sector, bringing in double good effects in terms of wealth.

You can activate the Duke Reward on a good date that falls on a **Rat day** in the North sector or any other positive sector. This is because every Rat day in 2023 contains the Duke Reward Star. Thus, you have the good influence of the Duke Reward Star brought in by the Rat day influence and from the locational influence.

Clearing Obstructions

龙德星 Dragon Virtue Star

Sometimes, no matter how hard we work and how well we plan, things still go wrong anyway. It feels like people are out to get us. There are unexpected hiccups and delays. Activating the Dragon Virtue in the Northwest 3 sector is supposed to help you clear away these blockages, enhance your wealth luck and boost your reputation.

However, the No.5 Yellow Star resides in the Northwest sector, bringing potential disharmony, dangers, accidents, injuries and loss of wealth. What to do now? It is good to de-clutter the Northwest sector to make sure that it is spacious. Leave a spacious area for Qi to flow from the Southwest, West, Northwest and North sectors in the year 2023 which starts on 4 February 2023. This will help you to activate the Southwest sector without touching it. Everything will work out smoothly.

You can also activate the Dragon Virtue Star on a good date that falls on a Dog day in any other positive sector. This is because every Dog day in 2023 contains the Dragon Virtue Star. Thus, you have the good influence of the Dragon Virtue Star brought in by the Dog day influence without the fear of triggering the Five Yellow Star.

Accidental Remedy

太陽 The Sun

You may be taking all precautionary measures against activating the Feng Shui afflictions. However, accidental activation of negative sectors can still happen. Your neighbour may be drilling a hole in her wall, right where your Grand Duke is sitting. Or, there could be a pylon hovering outside this sector of your home, or there is no Duke Virtue sector. Or you may have only gotten around to reading this article, so you have not yet activated the Duke Virtue sector for immunity. Not to worry, you can still remedy this by activating the Sun Star at **Southeast 1**.

The No.3 Jade Star also resides in the South sector triggering aggressiveness, stubbornness and competitive behaviour. Instead

of activating this sector, de-clutter the sector to make sure that it is spacious. Leave a spacious area for Qi to flow from the Southwest, South and Southeast sectors in the year 2023 which starts on 4 February 2023. This will help you to activate the South sector without touching it. Everything will work out smoothly.

Otherwise, you can activate the Sun Star on a good date that falls on a **Dragon day** in any other positive sector. This is because every Dragon day in 2023 contains the Sun Star. Thus, you have the good influence of the Sun Star brought in by the Dragon day influence without fear of triggering the No.3 Jade Star.

Effective Communication

太陰 The Moon

Communication is important for everyone, especially people in public relations, sales, marketing and customer service. The Moon Star not only improves your communication skills but also resolves issues like miscommunication and the ability to pursue and talk to the right person. The Moon Star also brings helpful people and wealth opportunities. This year the Moon Star is located in the South 2 sector.

You will benefit from the influence of the Moon Star when you carry out activities such as reading, hanging out with family or office work in this area.

The Moon Star's location in **South 2** coincides with the No.8 White Star which also resides in the South sector bringing wealth luck. This sector is very auspicious in 2023.

Entering the year 2023 on 4 February 2023, you can activate the Moon Star on a good date that falls on a **Horse day** in the South 2 sector or any other positive sector. This is because every Horse day in 2023 contains the Moon Star. Thus, you have the positive effects of the Moon Star brought in by the Horse day influence and from the locational influence.

Happiness and Well-being

福德 Fortune Virtue

The Fortune Virtue Star brings good health and help from people as well as opportunities. Fortune Virtue Star takes care of your general well-being. It is a star that brings happiness. The star resides in the **North 2** sector. It coincides with the No.1 White Star in the North sector and the Duke Reward in the North 2 sector, bringing a doubly auspicious effect.

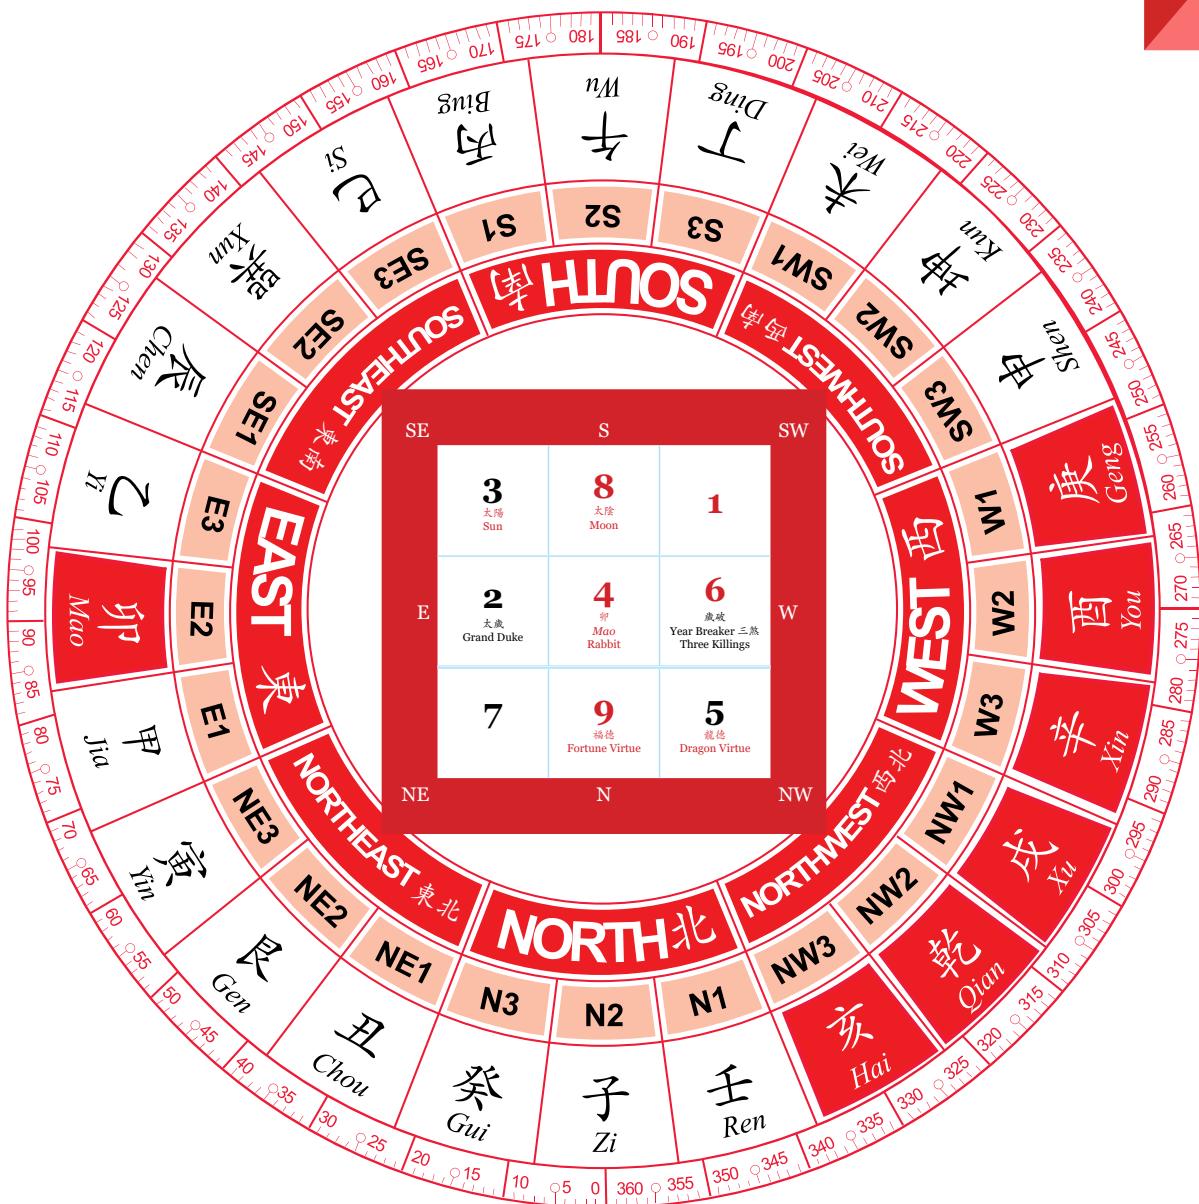

Entering the year 2023 on 4 February 2023, you can activate the Fortune Virtue Star on a good date that falls on a **Rat day** in the North 2 sector or any other positive sector. This is because every Rat day in 2023 contains the Fortune Virtue Star. Thus, you have the positive effects of the Fortune Virtue Star brought in by the Rat day influence and from the locational influence.

Flip to our calendar to find out when you should activate the stars in their designated sectors.

If you are new to Chinese Metaphysics and have only just taken an interest in Feng Shui, you may be wondering “What is Feng Shui activation?”. How do we activate a sector? Refer to page 46 of the December 2013 issue and check out the article “How to do a Feng Shui Activation”.

AVOIDING THE FENG SHUI

AFFLICTED SECTORS IN 2023

卯 Mao	East 太歲 Grand Duke	
酉 You	West 歲破 Year Breaker	
庚 Geng	酉 You	辛 Xin
戌 Xu	乾 Qian	亥 Hai

This is the eleventh year we are writing about the annual Feng Shui afflictions. For those who are new to Feng Shui practices, the focus is often on boosting their life aspirations such as wealth, health, career and so forth. While a focus on enhancements is good, you must also avoid the killing and destructive energies in your home and workplace. These energies change directions and locations annually, and this change coincides with *Lichun* on 4 February 2023.

The major annual afflictions you must be aware of are the 太歲 Grand Duke, 五黃 Five Yellow, 三煞 Three Killings and 歲破 Year Breaker. The *Sha Qi* to note are the Sickness Star 2, Bull Fight *Sha* 3 and Quarrelsome Star 7. Start by identifying the locations of the major Feng Shui afflictions for the coming year and ‘AVOID’ major activities here.

To ‘AVOID’ means not to carry out important activities such as renovations, drilling or groundbreaking in the Feng Shui afflicted sector as it can bring unwanted repercussions such as loss of wealth, illness, accidents, disputes and arguments. In more serious cases it can indicate the death of a family member. You may also want to keep these afflicted locations quiet and conduct fewer activities there.

太歲 Grand Duke

In 2023, the Grand Duke sets foot in the East 2 sector of your home or office. You do not want to irritate the Grand Duke by carrying out renovations in this area. This inauspicious star will give rise to accidents, injuries, unwanted mishaps and serious health problems. For businesspeople, it can potentially lead to a loss of income and wealth. The sector coincides with the No. 2 Black Star in the East sector bringing illness, thus hitting the East sector with a double whammy.

Steer clear of this area. Do not do any renovations, groundbreaking work, drilling and hammering on walls. Don’t even rearrange the furniture in this sector.

五黃 Five Yellow

Five Yellow enters the Northwest sector in 2023. This star is a harbinger of bad influences. Avoid any major work, renovation, drilling and even the movement of furniture in this sector. The best remedy is to have an open vast spacious area in the Southeast sector to counter the negative Qi. The sector coincides with the Annual *Sha* Star in the Northwest 3 sector bringing obstacles and setbacks, thus hitting the Northwest sector with a double whammy.

Fortunately, the sector coincides with the Dragon Virtue Star at Northwest 3, which will be able to mitigate some of the negative effects.

Steer clear of this area. Do not do any renovations, groundbreaking work, drilling and hammering on walls. Don't even rearrange the furniture in this sector.

三煞 Three Killings

In general, the Three Killings is located in the West sector in 2023. However, to pinpoint the exact location, the Three Killings is located at Southwest 3, West 2 and Northwest 3. This is because the Three Killings is comprised of three inauspicious stars, namely 歲煞 Annual *Sha* at Northwest 3, 災煞 Calamity *Sha* at West 2 and 劫煞 Robbery *Sha* at Southwest 3. As its name implies, Robbery *Sha* brings robbery, injury and loss of money, Calamity *Sha* causes accidents, mishaps and illnesses whilst the Annual *Sha* creates obstacles and setbacks. Some have poetically categorised these misfortunes as the three types of losses, namely loss of wealth, loss of a loved one and loss of one's reputation. You want to leave these sectors in peace and quiet, especially in 2023. It is important not to undertake any major renovations or groundbreaking work here.

The sector coincides with the Year Breaker Star in the West 2 sector bringing a loss of wealth, thus hitting the West sector with a double whammy.

The Three Killings coincides with the No.6 White Star in the West sector in 2023. The star indicates that the occupants of the house will receive help from powerful Noble people during challenging times.

Steer clear of this area. Do not carry out any renovations, groundbreaking work or drilling and hammering on walls. Don't even rearrange the furniture in this sector.

歲破 Year Breaker

The Year Breaker is also known as the 'wrath of the Grand Duke'. It comes to the West 2 sector this year. The repercussions of the Year Breaker can be greater than that of the Grand Duke. It is usually associated with a loss of wealth.

The Year Breaker coincides with the Three Killings in the West sector in 2023. This star is a harbinger of troubles. It brings a double-whammy effect to the West sector. Ensure there is a spacious area for Qi to flow from the Centre to the West sector or from the Southwest to the West sector.

Steer clear of this area. Do not carry out any renovations, groundbreaking work or drilling and hammering on walls. Don't even rearrange the furniture in this sector.

Sickness Charm

The Sickness Charm resides in the Northeast 3 sector in 2023. As the name implies, it brings illness to the occupants of a house. Elderly people should avoid occupying the Northeast room because of the Sickness Charm in this sector.

The Sickness Charm coincides with the No. 7 Red Star in the Northeast sector. The No. 7 Red Star can cause problems such as petty issues, peach blossom troubles and violence. These two stars will double the negative impact in the Northeast sector.

Triggering the Northeast sector will bring health problems. Ensure there is a spacious area for Qi to flow from the North to the Northeast sector to lessen the impact of the Sickness Charm.

Annual Illness Flying Star 2

Similar to the Sickness Charm Star, the No. 2 Black Star brings illness to the occupants of a house. It comes to the East this year. Ensure that the East sector of your home is spacious and clear of clutter. This will somewhat mitigate the Illness Star's effects.

This location coincides with the Grand Duke sector at East 2. It brings a double-whammy effect to the East sector. Ensure there is a spacious area for Qi to flow from the centre to the East sector.

Steer clear of this area. Do not carry out any renovations, groundbreaking work or drilling and hammering on walls. Don't even rearrange the furniture in this sector.

Annual Flying 3 Jade Star

The No. 3 Jade Star triggers aggressiveness, stubbornness and competitive behaviour in the occupants of a house. It is known as the 'Bull-Fight Star'. With the influence of this star, occupants are easily provoked into arguing and quarrelling. The star also brings about lawsuits, office politics and conflicts. It comes to the Southeast this year.

The sector coincides with the Sun Star in Southeast 2. The Sun Star somewhat mitigates the negative energy, but it is best not to disturb this sector.

Steer clear of this area. Do not carry out any renovations, groundbreaking work or drilling and hammering on walls. Don't even rearrange the furniture in this sector.

Annual Flying 7 Red Star

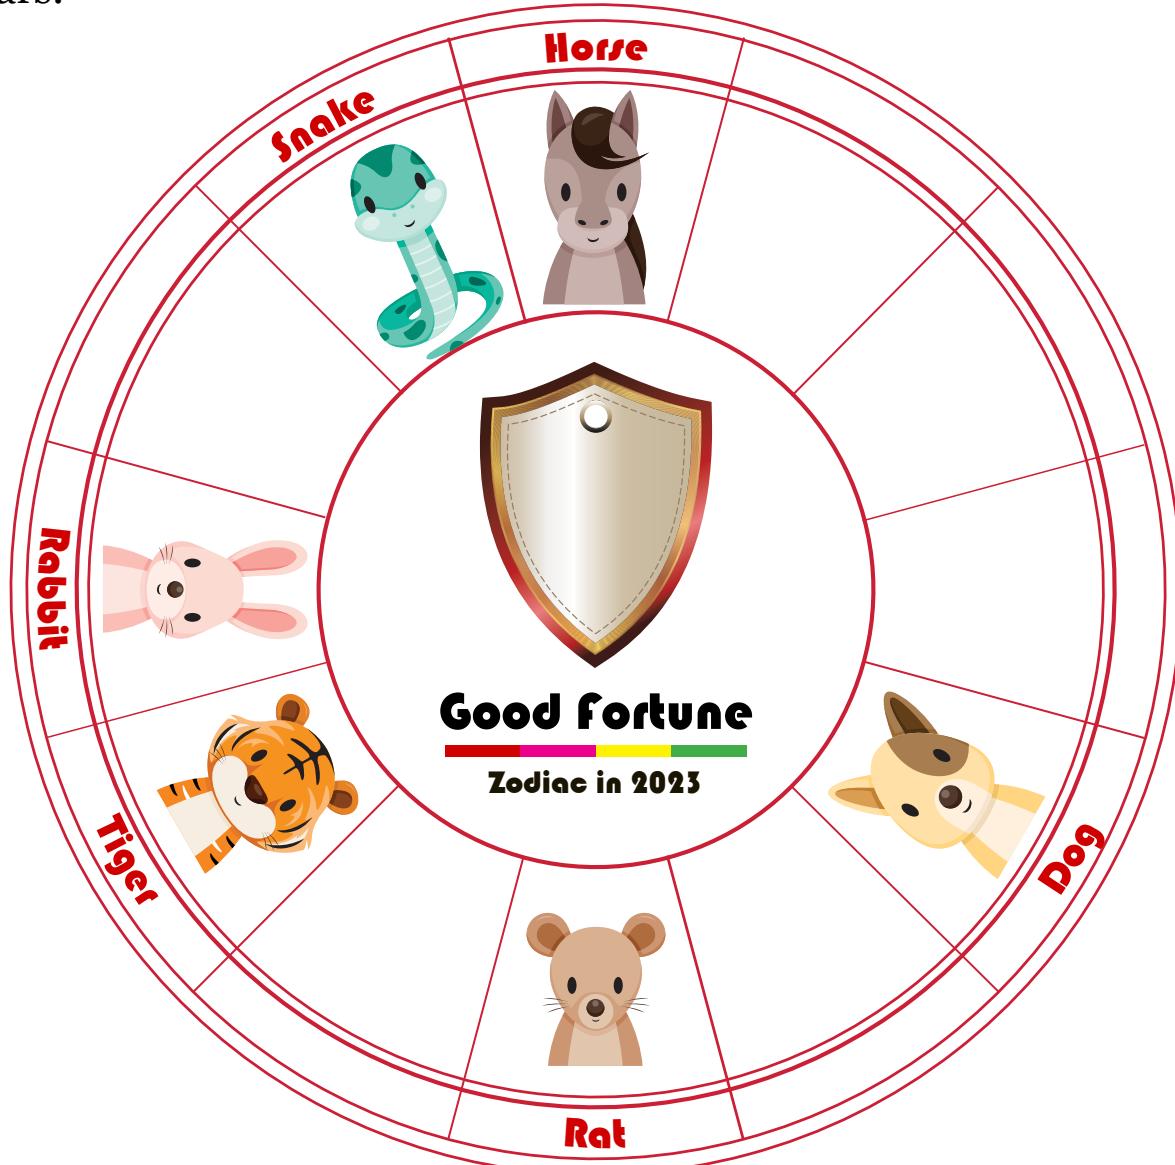

Annual Flying 7 Red Star is known as the 'Quarrelsome Star'. This star can cause problems such as peach blossom troubles, scandals,

assaults, violence, robbery and burglary, deception, theft and backstabbing. This area is especially bad for celebrities, students, writers, artists and those working in public relations in 2023. It comes to the Northeast in 2023. Ensure that there is a spacious area for Qi to flow in the Northeast to bring out the positive quality of Star 7.

Steer clear of this area. Do not carry out any renovations, groundbreaking work or drilling and hammering on walls. Don't even rearrange the furniture in this sector.

Good Fortune Zodiacs in 2023

Those with the following zodiacs in their Bazi Chart's year or month branch will be protected from the negative effects of inauspicious stars.

The Signs of Love in 2023

Is 2023 a year conducive to romance and love? How will your love life fare this year?

The 2023 Bazi Chart (refer to page 89) shows a Peach Blossom Star appearing in the Year Pillar followed by a Growth Star in the Hour, Month and Day Pillars respectively. The Rabbit sign represents the Peach Blossom Star and the Eating God, and the Tiger and Snake signs represent the Growth Star, the Hurting Officer and Direct Wealth respectively. These combinations are the ingredients for fast-paced, passionate, and dramatic romances. People will fall in love at first sight.

The essence of romance in the year of the Water Rabbit is similar to the Marrying Maiden Hexagram - the image of thunder above the lake. The upper trigram is formed by *Zhen*, the Arousing, Thunder and the lower trigram is formed by *Dui*, the Joyous, Lake. In the old days, “The Marrying Maiden” reflects the story of the daughter of a wealthy family married to the eldest son of a family of equal

status. The second daughter will follow her sister, the chief wife, to the husband's family to serve as a concubine. Usually, the second daughter will still be underaged at the time of the older sister's marriage and born from a lower-ranking concubine. She will be sent home after the older sister's marriage. She will stay with her family until she reaches marrying age. Then, she will be sent to her sister's household and serve her sister and husband as a concubine. The maiden of the hexagram refers to the second daughter who was fated to be the concubine in the old days. It was her duty and responsibility as a concubine's daughter. Her life changes suddenly when her sister gets married. This change is beyond her control.

The Marrying Maiden hexagram is not just the story of any second wife. According to the Yi Jing, Emperor Yi married his sisters to King Wen, a sage and ancestor of the Zhou people. The younger sister eventually usurped her older sister and became the King Wen's chief wife. King Wen is the creator of the Yi Jing.

A concubine was not a paramour or a woman who cohabits with a man without marriage. In ancient China, there were laws regarding concubinage. Concubines were regarded as married women but

had limited rights in the household. In today's world, concubinage has become illegal and concubines no longer exist. Women have become more educated and have freedoms not available to them in the old days. Hence, the hexagram needs a new interpretation. The hexagram denotes two people who meet and fall in love at first sight. They are unable to control their feelings for each other. The man is usually older, and the woman is usually very much younger in this relationship. Similar to the thunder stirring the water of the lake, which responds with shimmering waves, the girl follows the man of her choice. However, in a relationship where the couple's age gap is great, there is always the danger that the relationship can take a wrong turn, which can lead to endless misunderstandings and disagreements.

Will this kind of relationship last and turn into a deep and fulfilling love? For some, it will grow into a beautiful love story with a happy ending. For others, the relationship may fizzle out for various reasons - wrong timing, character clash or opposing ideologies.

For those who are the down-to-earth type, you may not be able to find your cup of tea. If you enter a relationship just for the sake of being with someone, you will always feel uncertain, suspicious and fearful. For those who are light-hearted and always looking for adventure, they will not find the whirlwind romances they are hoping for. The man can offer security, love and care but the passion may be short-lived.

Still, let's see if the external forces will offer you a chance for a happy and fulfilling relationship.

Romantically inclined Day Masters

The year's romantic energy continues to smile on the Earth Day men as well as the Earth and Fire Day ladies. Earth Day men will have surprising encounters with a charming and light-hearted woman who has a chameleon-like personality and image. Earth and Fire Day ladies may discover the possessive side of the men they meet when they get to know them better. The age gap between the couple

in relationships will tend to be big. In the relationship, the man will try to exert his dominance the longer they stay in the relationship, while the woman has her own mind. At least, the relationship will appear and stay that way in 2023. With the *Gui* Water producing the Rabbit sign, this denotes a nurturing relationship. However, the Snake and Tiger destruction indicates that there will be one party who is likely to behave childishly and unreasonably.

While some relationships may start off with excitement, romantic energies can turn negative and dangerous for some. The Wood Tiger energy brings out the argumentative side of a person. One party will always try to provoke the other emotionally. The rational love partner will be seen as being restrictive and unfeeling. Those seeking Mr Right or Ms Right must learn to compromise and adapt to each other's habits and sensitivity.

With the effect of the Water Rabbit, emotions take the lead. They will get into the relationship because of a strong attraction but will go through a lot of struggles because of differences in character and ideologies. On a positive note, couples who start off their relationship this Water Rabbit year and are able to make it work will have a stronger bond with each other. Not only are they lovers, but they also become each other's best friends.

The energy of the year is suited for those looking for long-term security and steadiness in their love life. No matter what type of personality you are and what type of person you are looking for, there will be someone that suits you in 2023.

Lucky-in-love Zodiacs

If your Day Master isn't lucky in love this year, don't be disheartened. You have another chance – the zodiac of your Day Branch. If you have a Horse, Monkey or Rat on the Day Branch, you will probably meet someone you like. The romantic stars bode well for the Horse, Monkey or Rat signs looking for committed relationships.

Having these signs on the Year and Month Branches indicates external romantic luck. Usually, this means that the members of the opposite sex are attracted to you, but you may or may not share their feelings.

Besides these signs, those who have the Goat and Horse signs on any of the Earthly Branches have Peach Blossom luck. The Peach Blossom luck brings passionate relationships. These relationships can develop into long-term loving relationships if couples are able to overcome their differences. However, the Goat and Horse signs who are only looking for fun and adventure will be spooked when they are asked to commit. Those starting off relationships with an eye to the long-term will find fulfilling love.

So, will the path to true love be smooth? If you have the Horse, Monkey or Rat in your Month and Year Branches, you're set. You only need to be found by that special person.

How do you increase your chances of being found? It depends on where the auspicious zodiac signs reside on your Bazi Chart.

If any one of the zodiac signs, Horse, Monkey or Rat, appears on the Year Branch then you should socialize more! Go out! Travel! Be adventurous and make new friends. If they appear on the Month Branch, then someone may be enchanted by your charisma. This special someone may appear at your workplace, while you're working out in the gym or while you are guiding others with your intelligence. If the auspicious zodiac sign is on the Day Branch, ask close friends or relatives to introduce you to someone interesting. And for those with auspicious zodiac signs on the Hour Branch, your hobby may send someone your way. Join clubs where you can meet like-minded people.

Still unsure of what to do? Maybe you should seek help from the 六合 Six Harmony Deity. If you are still single and have not met anyone yet, you can send a message to the Universe seeking the guidance of the 六合 Six Harmony Deity by using the 法奇門 *Fa Qi Men* technique. On 14 March 2023 after 5:30am, take some quiet time to sit facing Northwest. Calmly ask the Universe for guidance about your special someone. Lastly, you can seek the advice of a person who has a Snake in his or her Bazi Chart.

Overcoming age differences in relationships

Some couples find that a big age difference will have a strong impact on their relationship over time. Others may feel that their compatibility is more important than the difference in years. If you think the age gap is an issue, read on to discover factors that can help you bridge this gap.

Higher levels of education

A well-educated person is regarded to be more rational, tolerant,

understanding and wise. They are also open-minded and have a higher EQ. A good educational background is a safety net for couples with a big age difference. When problems arise, they will readily try to discuss and work out their problems. Less educated people tend to lack problem-solving skills and have fewer options when making decisions. Hence, they tend to become frustrated and get angry easily.

Effective communication skills

Conflict is inevitable in every relationship. Couples who are able to exchange their thoughts and feelings freely with each other enjoy healthy communication. Healthy communication often involves people taking turns speaking and listening. Each person will listen intently and only speak after his or her partner is done speaking. Healthy communication is crucial for sustaining long-term relationships.

Financial stability

Financial security is considered one of the most attractive traits to have in a partner. Financial hardship and instability are always a source of conflict. Many relationships break up because of bad financial management.

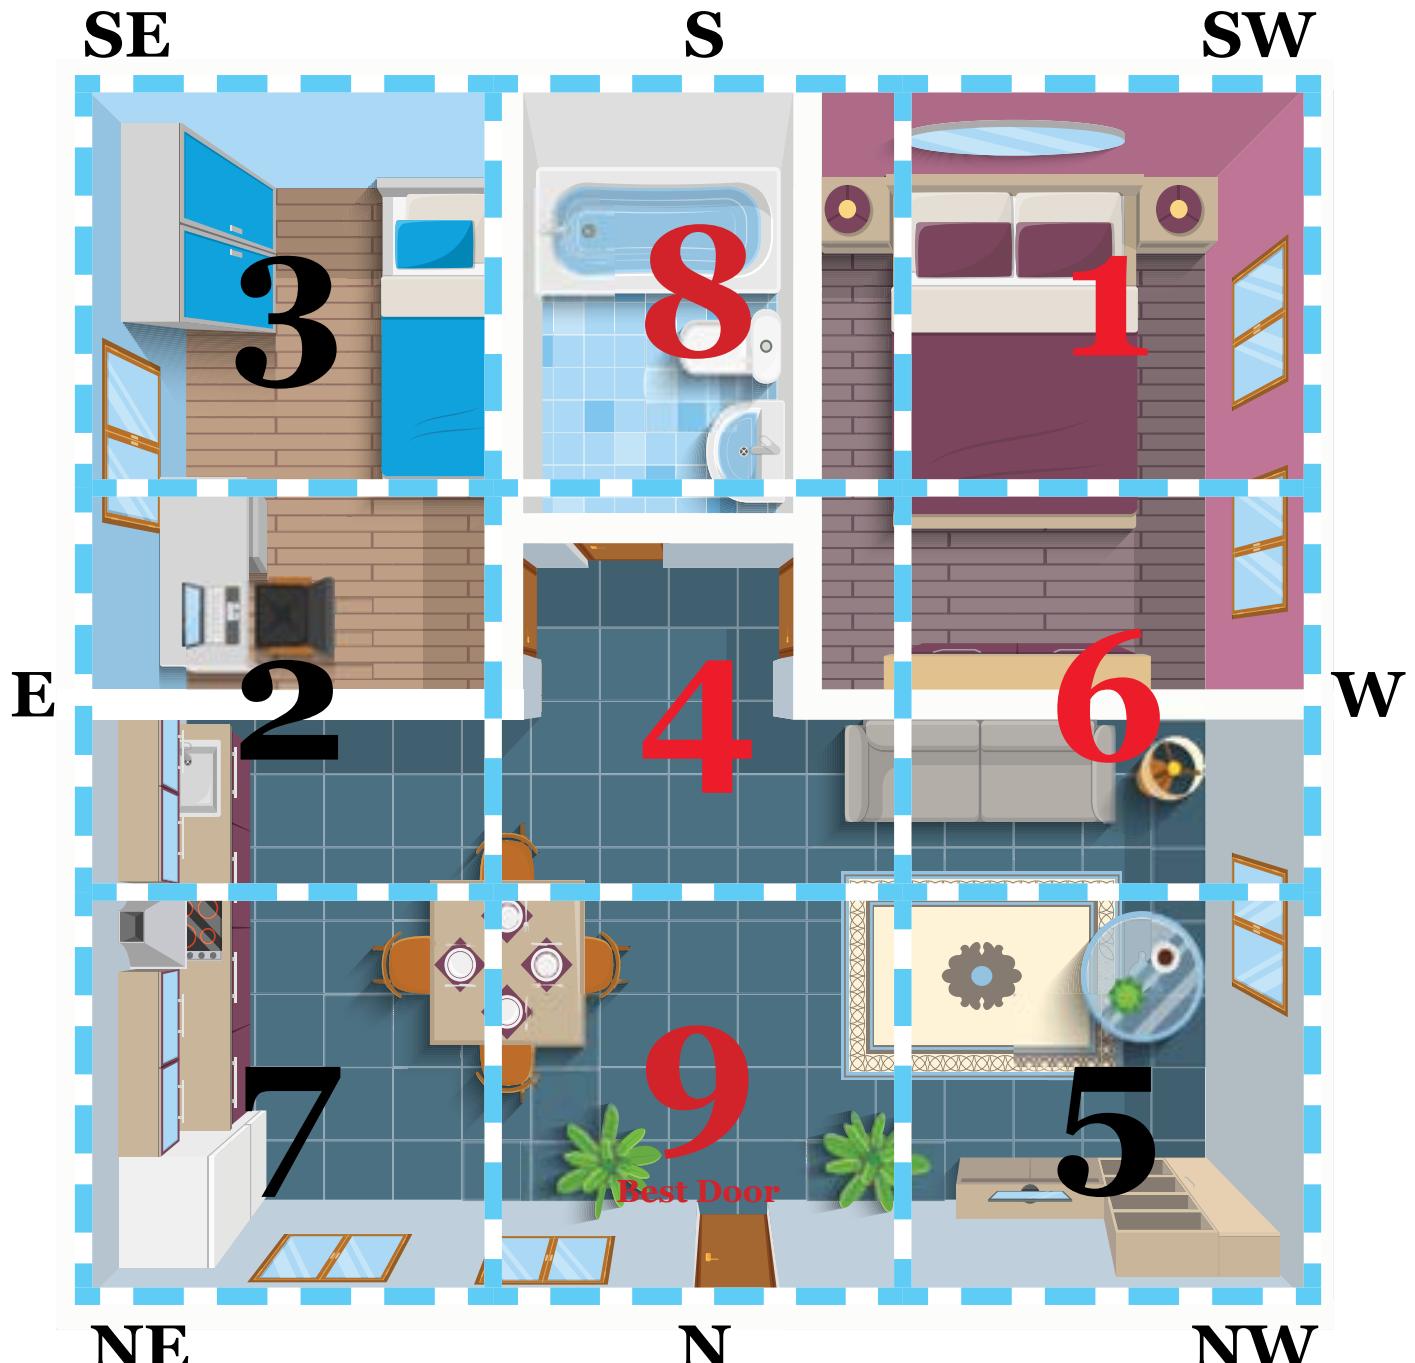

Supportive Families

It is important to have supportive family members. Couples will be able to seek help from their families when they are having problems. When disputes and arguments get out of hand, family members can become mediators. Family members can help the couple face up to their disagreements, and consider the best way to move forward.

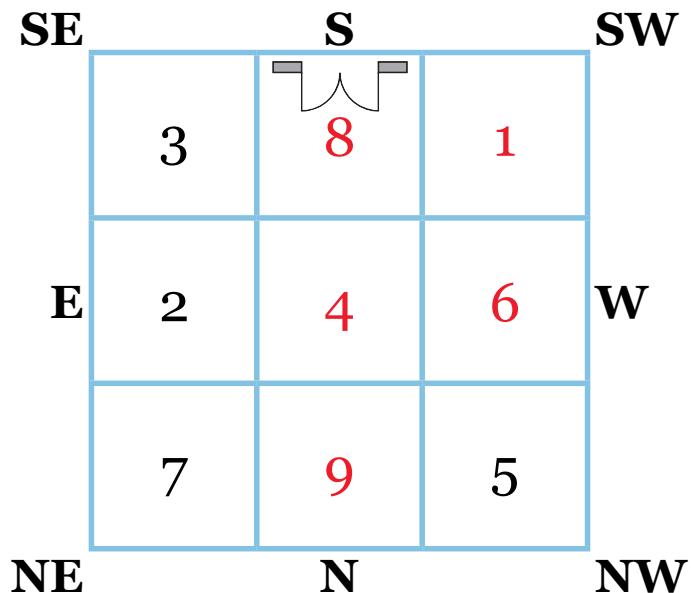

Different spending habits can cause conflicts if love partners are not honest with each other about their attitudes towards money.

The Solar Eclipse - A Bad Omen

In Chinese Metaphysics studies, solar eclipses are regarded as a bad omen. A solar eclipse is worse than a lunar eclipse. The Yang energy represents all living beings. When a solar eclipse occurs, there will be a sudden shift of energy from Yang to Yin. This fluctuation of energy can affect people's moods and finances, the economy of a country and can trigger disasters especially water-related disasters.

A total solar eclipse on **20th April 2023 at 01:34 UTC** will take place in North West Cape, a remote peninsula of Western Australia.. The partial solar eclipse will be visible from South East Asia, Australia, the Pacific and Indian Oceans and Antarctica. The Influence of the Eight Deities on your Destiny Palace in 2023

Qi Map for 2022

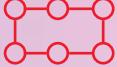

Besides the Deity that permanently resides in your *Qi Men Dun Jia* (QMDJ) Destiny Palace, there is also a yearly Deity influence entering the Palace every year. This annual influence brings different celestial influences and energy to your Destiny Palace. There are 10 Deities in the study of QMDJ but only 8 Deities are involved in the annual shift in and out of your Destiny Palace. The QMDJ chart for 2023 is set out above.

How will each Deity affect you when it falls into your Destiny Palace?

If you do not know your Destiny Palace, you can use the Palace containing the Stem of your birth year to see how you will fare in

2023. For example, if you are born in the Year of the Wood Rabbit (乙卯 *Yi Mao*), your Year Palace is located in the West together with the Six Harmony Heaven Deity.

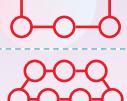

Direction	Universe	Subject Matter
South	玄武 Black Tortoise 	<p>The Black Tortoise brings out the persuasive side of you. You will also be able to relate to people's emotions and thoughts. You will intuitively pick up on what the person is about to do or decide. This can be a powerful tool to help you earn money in 2023. However, making money will not help you feel happy and fulfilled. Focus on building relationships over accumulating possessions.</p>
Southwest	白虎 White Tiger 	<p>Your sadness will spiral into depression if left unchecked. You will be sensitive when people point out your shortcomings. Exercise moderately every day and share your negative experiences in support groups. Learn to let go of your past mistakes and your anger towards those who have wronged you. Replace them with positive people and events. This can help you break the negative chain and balance your energies and emotions.</p>

Direction	Universe	Subject Matter
West	六合 Six Harmony	You will experience miscommunications and misunderstandings. Ensure the other party understands you by double-checking your message with them. Follow-up with an email after a conversation. The Six Harmony brings romantic encounters. You will also have the ability to find the right people to perform specialised and unique work.

You will be able to pick up on market trends before others and predict the products that will become popular as well as those that will experience a rapid increase in prices. You will also know where to find rare and valuable items.
Northeast	直符 Chief 	Your enemy is also your Nobleman. Fight and compete smartly in 2023. Mimic them and improve on their tactics. You will get what you wish for, so think positively.

Direction	Universe	Subject Matter
East	九天 Nine Heaven 	Your finances will become messy if you don't keep your spending in check. It is better to keep track of your expenses. Spend wisely and you will have positive cash flow throughout the year.
Southeast	九地 Nine Earth 	The Palace indicates you will enjoy a good time most of the year without many worries. However, do not go hiking in the mountains in April and May. You are likely to get lost during the hike. Students will have a hard time remembering what they have learned. To overcome forgetfulness, discuss and brainstorm what you have learned.

In this year's update, we have included the Seven Star Path. The Seven Star Path measures the Seven Star Path strength of the Deities. The stronger the influence of the Deities, the easier it is for you to fulfil your wishes.
